TECHNICAL SKILLS

Languages
C, JAVA, Python, JavaScript

AI/ML
Random Forest, LSTM, SHAP, LIME, LLM API Integration (Gemini)

Libraries
Python (NumPy, pandas, scikit-learn, Matplotlib)

Frontend
HTML, CSS, React.js

Backend
Node.js, Express.js

Database
PostgreSQL, MongoDB, PL/SQL, SQL (queries, joins)

Cloud & Tools
AWS, Git, GitHub, VS Code

Core Concepts
DSA, OOP, DBMS

CERTIFICATIONS

AWS Certified Cloud Practitioner
Gained foundational knowledge of AWS cloud services and concepts.

AWS Cloud Quest: Cloud Practitioner
Reinforced AWS concepts through interactive, hands-on cloud challenges.

Python Foundation Certification – Infosys Springboard
Covered Python fundamentals and practical programming exercises.

Python Essentials 1 & 2 – Cisco Networking Academy
Hands-on Python syntax, problem-solving, and application.

Java Foundation Certification – Infosys Springboard
Learned core Java programming and object-oriented concepts.

CAREER OBJECTIVE

CSE student (9.11 CGPA) with hands-on experience building AI systems: an explainable stock prediction model using Random Forest, LSTM and SHAP/LIME, and a full-stack AI application integrating the Gemini API. Seeking an AI Engineer role to build reliable, interpretable ML solutions.

EDUCATION

Bachelor of Technology in Computer Science and Engineering (CSE) 06/2023 – 05/2027
Lakireddy Bali Reddy College of Engineering (Autonomous)
- Affiliated to Jawaharlal Nehru Technological University, Kakinada
- CGPA: 9.11/10 (pursuing)

Intermediate 06/2021 – 04/2023
Sri Chaitanya Junior College, Andhra Pradesh
- Board of Intermediate Education, Andhra Pradesh
- Percentage: 93%

Secondary School Certificate (SSC) 06/2020 – 04/2021
Sri Chaitanya School, Andhra Pradesh
- Board of Secondary Education, Andhra Pradesh
- GPA: 10/10

PROJECTS

Explainable AI for Stock Market Trend Prediction and Investment Decision Support, *(Ongoing)*
Built an Explainable AI stock trend prediction system using Random Forest and LSTM. Engineered RSI, MACD and moving-average features, and used SHAP and LIME to explain individual predictions.

FutureMe AI - Full Stack AI Personal Growth SaaS
Full-stack AI SaaS (React, Node.js, Express, PostgreSQL) that sends each user's goals, habits and mood history to the Gemini API for personalized responses. JWT authentication and a 13-table schema.

Student Management System - Full Stack Java Application
Spring Boot, Hibernate and Oracle app with CRUD operations and Spring Security role-based access (Admin/Staff).

INTERNSHIPS

Intern,
WISER- The Washington Institute for STEM, Entrepreneurship and Research
- Built an AI email ticketing system (Node.js/TypeScript, PostgreSQL with pgvector, OpenAI API, Gmail API) that auto-replies using a pre-trained model.
- Administered QISE's LMS (TrainerCentral/Zoho) with SAML/SSO integration for APSSDC.
- Cleaned and managed large student enrollment and progress datasets for reporting.

Project Intern, *Infosys Springboard*
Completed the Intelligent Cognitive Alarm Platform project (FastAPI, React/Vite, PostgreSQL): recommendation engine, ML/analytics, frontend, and Docker deployment on Render and Vercel.
